PEDIATRIC NEUROLOGY
Subject Index Volume 22

Acute demyelinating encephalomyelitis, acute psychosis presentation, 8
ADEM, acute psychosis presentation, 8
Adrenoleukodystrophy, comas as an acute presentation, 237
Aggressive behavior, and Satos syndrome, 64
Arthrogryposis congenita, multiplex, and mitochondrial complex I deficiency, 53
Attention-deficit-hyperactivity disorder and restless legs/periodic limb movements, and dopaminergic therapy, 182
Autonomic crises, treated with intranasal midazolam, in patients with familial dysautonomia, 19

Basal lamina abnormality in the skeletal muscle of Walker-Warburg syndrome, 139
Behavior and cognitive abnormalities in children receiving topiramate, 200
Blue rubber bleb nevus syndrome, with central nervous system involvement, 410
Book Reviews
  Arteriovenous Malformations in Functional Areas of the Brain: Shokei Yamada/Author, 157
  Atlas and Classification of Electroencephalopathy: Hans O. Luders and Soheyl Noachtar/Authors, 332
  Atlas of Common Lysosomal and Peroxismal Disorders: Mohammed A. Al-Essa and Pinar T. Ozand/Authors, 157
  Decision Making in Pediatric Physical Therapy: Suzann K. Campbell/Editor, 77
  Diabetic Neuropathy: Peter James Dyck and P.K. Thomas/Authors, 332
  Diagnostic Testing In Neurology: Randolph W. Evans/Author, 422
  Electrodiagnosis in Clinical Neurology: Michael J. Aminoff/Editor, 77
  Ritalin: Theory and Practice: Laurence L. Greenhill and Betty B. Osman/Authors, 422
Brachial plexus palsy, caused by neoplasm, 309
Brain dysmaturity index for automatic detection of high risk infants, 187
Brain edema, acute, and fluid therapy, 298
Bromide-induced pseudohyperchloridemia, 333

Carbamazepine-induced Stevens-Johnson syndrome treated with IV steroids and IVIG, 231
Carbon monoxide poisoning presenting as an afebrile seizure, 330
Carnitine palmitoyltransferase II deficiency, muscular, 148
Carotid artery, distorted internal, and compressive optic nerve atrophy, 322
Celiac antibodies, prevalence with neurologic disorders, 393
Cerebellar hemispheres, relevance for executive function, 106
Cerebral oxygenation state in moyamoya disease, a near-infrared spectroscopy study, 365
Cerebrovascular maturity and periventricular leukomalacia, correlation between, 204
Coma as an acute presentation of adrenoleukodystrophy, 237
Corticosteroid therapy, high-dose intravenous, effects in Landau-Kleffner syndrome, 145
Cytomegalovirus infection, congenital, diagnosis in a child with pachygyria, 407

Dehydrogenase deficiency, very-long-chain acyl-coenzyme A, clinical and molecular heterogeneity, 98
Development, arrested, and seizures and neuroblastoma, 57
Dopamine transporter and nitric oxide synthase in hypoxic-ischemic brain, 115
Dopaminergic therapy in children with restless leg/periodic limb movements in sleep and ADHD, 182
Dysautonomia, familial, and autonomic crises, treated with intranasal midazolam, 19

Edema, acute brain, and fluid therapy, 298
Encephalitis, brainstem, resulting from Epstein-Barr virus mimicking an infiltrating tumor, 130
Encephalomyelitis, acute disseminated,
  Acute psychosis presentation, 8
  And hereditary neuropathy with susceptibility to pressure palsy, 302
Epilepsy
  And bilateral frontoparietal polymicrogyria, 240
  Newly diagnosed temporal lobe, and neuronal dysfunction, 281
Epileptic syndromes, spectrum with electrical status epilepticus during sleep, 371
Epidermal nevus syndrome with hypermelanosis and chronic hyponatremia, 151
Epstein-Barr virus mimicking an infiltrating tumor, and brainstem encephalitis, 130

Facial nevus, lack of in Sturge-Weber syndrome, 400
Familial dysautonomia, and autonomic crises treated with intranasal midazolam, 19
Fanconi's syndrome, and mitochondrial cytopathy, 403
Fluid therapy of acute brain edema, 298
Friedreich's ataxia, mutation detection, 413
Frontal lobe syndrome, reversible, and influenza virus infection, 318

Gabapentin
  In the treatment of childhood reflex sympathetic dystrophy, 220
  Treatment, and delayed-onset hemichorea/hemiballismus, 68
Gaucher's disease type 3, and communicating hydrocephalus, 234
Gerstmann's syndrome, developmental, a distinct clinical entity of learning disabilities, 267
Grasp reflex, plantar, in high risk infants during the first year of life, 75
Growth hormone deficiency in children with neurofibromatosis type 1 without suprasellar lesions, 355

Hemichorea/hemiballismus, delayed-onset, and gabapentin treatment, 68
Hemidystonia, and putaminal necrosis, 222
Hemorrhage, intraventricular, and increased leukocytes, 194

High-risk infants, brain dysmaturity index for automatic detection, 187
Hydrocephalus, communicating in Gaucher's disease type 3, 234
Hyperglycinemia, transient nonketotic, in an asphyxiated patient with pyridoxine-dependent seizures, 235
Hypermelanosis and chronic hyponatremia, and epidermal nevus syndrome, 151
Hyperventilation, central, and topiramate administration, 305
Hyponatremia, chronic and hypermelanosis, and epidermal nevus syndrome, 151
Hypoxic-ischemic brain, dopamine transporter and nitric oxide synthase, 115

Immunoglobulin therapy
  High-dose intravenous, in juvenile myasthenia gravis, 40
  Intravenous, and IV steroid, in Stevens-Johnson syndrome, 231
Infection, a stimulus for tic disorders, 380
Influenza virus infection, and reversible frontal lobe syndrome, 318

Krabbe's disease, and FDG PET scan, 44

Landau-Kleffner syndrome, effects of high-dose intravenous corticosteroid therapy, 145
Learning disabilities, and developmental Gerstmann's syndrome, 267
Leigh's syndrome, 29
Leukocytes, increased, and intraventricular hemorrhage, 194
Lissencephaly, classic, and ^{99}Tc-HmPAO SPECT, 292

Magnetic stimulation, transcranial, and other evoked potentials in pediatric multiple sclerosis, 136
Metabolic myopathies, clinical approach, 87, 171
Midazolam, intranasal, as treatment of autonomic crises in patients with familial dysautonomia, 8
Mitochondrial biogenesis defects and neuromuscular disorders, 122
Mitochondrial complex I deficiency in a female with multiplex arthrogryposis congenita, 53
Mononeuropathy, and MRI, 314
Moyamoya disease, and cerebral oxygenation state, a near infrared spectroscopy study, 365
MRI
  Diffusion-weighted, changes after status epilepticus, 327
  In unexplained mononeuropathy, 314
Multiple sclerosis, transcranial magnetic stimulation and other evoked potentials, 136
Mutation detection in Friedreich's ataxia, 413
Myasthenia gravis, juvenile, and high-dose intravenous immunoglobulin therapy, 40
^{99}Tc-HmPAO SPECT, and classic lissencephaly, 292

Neck-tongue syndrome, 397
Neoplasm as a cause of brachial plexus palsy, 309
Neuroblastoma associated with seizures and arrested development, 57
Neurocysticercosis, clinical aspects, 287
Neurofibromatosis type 1
  And Tourette's syndrome, 420
  Without suprasellar lesions, and growth hormone deficiency, 355
Neuromuscular disorders and mitochondrial biogenesis defects, 122
Neuronal ceroid-lipofuscinosis, juvenile, and sleep alterations, 347
Neuropathy, hereditary, with susceptibility to pressure palsy, and acute disseminated encephalomyelitis, 302
Neuronal dysfunction in children with newly diagnosed temporal lobe epilepsy, 281
Nitric oxide synthase and dopamine transporter in hypoxic-ischemic brain, 115

Optic nerve atrophy, compressive, due to a distorted internal carotid artery, 322

Pachygyria, and congenital cytomegalovirus infection, 407
Periventricular leukomalacia, and cerebrovascular maturity, correlation between, 204
PET scan, and Krabbe's disease, 44
Pituitary gland, prenatal, hidden and forgotten, 155
Plantar grasp reflex in high risk infants during the first year of life, 75
Polymicrogyria, bilateral frontoparietal, and epilepsy, 240
Positron emission tomography, FDG, and Krabbe's disease, 44
Pressure palsy, susceptibility, and hereditary neuropathy, and acute disseminated encephalomyelitis, 302
Pseudohyperchloridemia, bromide-induced, 333
Putaminal necrosis presenting with hemidystonia, 222

Reflex sympathetic dystrophy, and gabapentin, 220
Restless leg/periodic limb movements in sleep and ADHD, dopaminergic therapy, 182
Rett syndrome, and substance P immunoreactivity, 259

Seizure control, improvement with sleep apnea treatment, 36
Seizures
  Afebrile, and carbon-monoxide poisoning, 330
  And arrested development, and neuroblastoma, 57
  Prognosis of occurring in the first year of life, 386
  Pyridoxine-dependent, and transient nonketotic hyperglycinemia, 225
Sleep alterations in juvenile neuronal ceroid-lipofuscinosis, 347
Sleep, and spectrum of epileptic syndromes with electrical status epilepticus, 371
Sleep apnea treatment improves seizure control in children with neurodevelopmental disorder, 36
Sotos syndrome, and aggressive behavior, 64
Spectroscopy, near infrared, and cerebral oxygenation state in moyamoya disease, 365
Spike-and-wave patterns, generalized, clinical correlates, 23
Status epilepticus
  Changes in diffusion-weighted MRI after, 327
  Electrical, spectrum of epileptic syndromes during sleep, 371
Steroids, IV, and IVIG, and Stevens-Johnson syndrome, 231
Stevens-Johnson syndrome, carbamazepine-induced, treated with IV steroid and IVIG, 231
Sturge-Weber syndrome without facial nevus, 400
Substance P immunoreactivity in Rett syndrome, 259
Suprasellar lesions, lack of in neurofibromatosis type 1, and growth deficiency, 355

T8993G families, Portuguese mtDNA, clinical and molecular studies, 29
Teratoma, congenital intracranial, 72
Thumb-in-palm posture in newborns, occurrence rate and correlation factors, 214
Tic disorders, stimulated by infection, 380
Topiramate
  And central hyperventilation, 305
  Factors associated with behavioral and cognitive abnormalities, 200
Tourette's syndrome and neurofibromatosis type 1, 420
Tumor, infiltrating, mimicked by brainstem encephalitis resulting from Epstein-Barr virus, 130

Valproate, and weight gain, 361
Visual loss, delayed post-traumatic, 133

Walker-Warburg syndrome, basal lamina abnormality in the skeletal muscle, 138
Weight gain associated with valproate, 361
